When using any new hair product it's always recommended that you do a hair strand tests or a skin patch test first. Even natural products can cause allergic reactions. Test before use.

Important: Please keep in mind that your hair is as individual and unique as you are. Henna and Ayurvedic treatments can be drying for some. It's recommended that you add our aloe vera powder or one of our hair oils to your recipe and/or deep condition your hair afterwards. We recommend that all of our clients try varying recipes based on their individual hair needs and focus. Use the recipe that works best for your hair! Further instructions can be found and downloaded on every product page.
